VOL. NO. 4.

DO NOT EXPECT STRIKE TO COME

Washington, Oct. 19.—Sentiment on the part of the public has so firmly crystallized against the proposed strike of the railroad brotherhoods that Washington is optimistic to the extent of believing that there will be no strike.

The Harding administration is yielding in the face of the demands of the brotherhoods. What a number of the senate, the president supported the Bach-Cunningham railroad bill and the ill-fated penance clause which ultimately was stricken out. In the present emergency, it stands for the public. During the previous administration, the brotherhoods had little difficulty in securing everything for which they expressed desire.

Public sympathy is withheld from the brotherhoods because, after having recognized the labor board, they accepted the verdict when favorable to them, they ignored the labor board and refused to accept its decisions when unfavorable to them.

The law of the land requires that all disputes shall be submitted to the labor board. In 1920, the brotherhoods appealed for higher wages and wages were increased 21 per cent. The railroads accepted the decision. This year the railroads appealed for a reduction in wages. A reduction of 12 per cent. was granted. The brotherhoods failed to abide by the decision, and the strike was called.

Under the circumstances, it would be most profitable for the railroads were the brotherhoods to strike. Public sympathy is against them. Were they to inflict nationwide suffering on the people, and starve the babies in congested cities, the brotherhoods would bring about their own undoing. But congress, judging from interviews with its leading members in both branches, would avoid the strike for two reasons: to obviate suffering and death, and to prevent the unions from destroying themselves. The majority of the members of congress believe it is inadvisable that unions serve a good purpose.

The Harding administration is not deeply concerned with unionism. In the first place, unionism approved president when he was a candidate. Its every leader, from Samuel Gompers down, ardently and aggressively supported Governor Cox. It is the democratic nominee. In the second place, unionism, in the last election, illustrated its impotency. It prevented any only in purely local elections it can not poll its strength, it can not control its members.

This President Harding believes that he should proceed in the interest of the public, and that he can do so in safety. If he holds capital and gains public approval, he can manage the face of labor. This, in effect, he promises to do, although he will act modestly and mildly and to the best of his ability, without offense.

At any rate it is the motto of the president in the present emergency that the public must be protected in respect of the contrary viewpoint of unionism.

During the Wilson administration, labor had its own "red" day. It was an unenviable thing to be a man and woman prepared to make sacrifices for the common cause, railroad brotherhoods, and demanded the enactment of a bill which would increase their wages and decrease the number of working hours.

They threatened a nationwide strike unless by a certain specified hour the bill was enacted. Possibly on account of the national election, President Wilson and Secretary McAdoo, sidetracked. They were watching in the senate gallery with their hands behind their backs, observing the agonized twisting themselves into eternity. The senate debated, but in the end it was defeated.

The Adams bill was enacted. But conditions have changed. And unless the strike order is issued, there will be a fight beyond all peradventure.

GREENWOOD CHILD BURNS TO DEATH

Three Years Old Girl Caught on Fire Playing With Straw Brown.

Greenwood, Oct. 19.—Playing in the yard with a straw brown, Elizabeth Brown, three-year-old daughter of Mr. and Mrs. J. Milton Brown of Lela, in this county, caught fire and was burned to death late yesterday afternoon. An older sister found the child enveloped in flames in the living room of their home and dashed a bucket of water over her. The flames had already spread from the straw brown to the child's dress. The child was taken to the hospital, but died about three hours afterward.

GENERAL NEWS.

Jackson, Ga., Oct. 19.—Known as Georgia's corn king, B. F. Watkins, died here today. He held the record for Georgia for corn production on a single acre his yield of 175 bushels attracting attention throughout the country.

Waycross, Ga., Oct. 19.—With nearly 200 delegates in attendance, the annual convention of the Georgia division, United Daughters of the Confederacy, is in session here with Mrs. Frank Harrell, of Americus, president, presiding. Tomorrow Admiral W. S. Benson will be presented with a sword in token of the appreciation of Georgia, where the admiral was born and reared.

Washington, Oct. 19.—Based on statistics for 32 cities, the cost of living in the United States decreased 1.7 per cent from last May to September, and 1.5 per cent from June, 1920, to September, according to figures announced today by the bureau of labor statistics.

Carson, Miss., Oct. 19.—Three white men and one unidentified negro were killed, and several others injured last night when 15 cars of a train of the J. J. Newman line, owned by a company, became separated from the engine on an upgrade and ran away, crashing into a work train about two miles from this place, practically demolishing the work train.

Washington, Oct. 19.—Formal acceptance by Belgium of President Harding's invitation to participate in the discussion of far eastern questions at the coming Washington conference was received today. The Belgian government accepted the invitation, which was made at Brussels, in transmitting the acceptance, said the Belgian government accepted "with thanks and appreciation."

Charlottesville, Va., Oct. 19.—Confederate veterans of Virginia gathered here for their annual convention, were principal participants today at the unveiling of a bronze statue to Gen. "Stonewall" Jackson. One of the first chief of which fought under General Jackson in the army of northern Virginia were joined by their wives, sons and daughters in doing honor to the memory of one of the outstanding figures of the Confederacy.

Vincennes, N. J., Oct. 19.—Louis Livino, the negro accused of killing a little girl at East Moorestown, N. J., last spring, was arrested here yesterday after absconding a police officer. According to the police, he was confined to killing the child. A small crowd surrounded the jail after his arrest became known, but every precaution was taken to guard the prisoner.

Chicago, Oct. 19.—An exhaustive search of the records of a boy, poisoned cancer, responsible for the critical illness of six nurses at the West End hospital, was being conducted today by police officers. The boy came through the city and was addressed to Miss Helen Rosenfield, a 17-year-old student nurse. It contained a letter, a sample of which was shown that the deadly poison was picked all of the candy.

PICKING AND GINNING PROGRESSING RAPIDLY

Washington, Oct. 19.—Ideal weather for picking and ginning cotton prevailed during the last week and very rapid progress was made in all sections where this work has not been completed, according to the national weather and crop bulletin issued today. Killing frost occurred in the northern sections of the cotton belt, but without material damage, the bulletin stated, and said:

"Picking has been completed in South Carolina, except in the northwestern portion, and the crop has been mostly ginned in Tennessee. This work is far advanced in Arkansas, is well along in Oklahoma and about completed in Texas, except in the northwestern portion. Picking has been practically accomplished in Georgia and has been finished in most sections of central and southern Alabama, while rapid progress was made in North Carolina, and Mississippi and the crop has been mostly picked in Louisiana."

The seeding of small grains made rapid progress during the week in the southern portion of the winter wheat belt from the Mississippi valley eastward. But the soil has been too dry for wheat in the Arkansas valley, and in Oklahoma, Texas and Kansas, and for fruit and all truck in all parts of the south.

We desire to inform the public that we will erect, commencing at once, fifteen or more modern store buildings on the main street of Great Falls, S. C. The dwellings now on this street will be torn down and erected elsewhere. The new stores will be thoroughly up-to-date, brick and concrete, plate glass fronts, lighted with electricity and equipped with water and sewerage. As rapidly as finished all of these stores will be rented to the public at reasonable rates, and to prospective renters who arrange with us now we will build the stores suited to their requirements.

Application for rental of these stores will be received after Thursday, September 22nd., at our office in Great Falls, S. C.

REPUBLIC COTTON MILLS

By R. S. Mebane, President.

GEORGIA TENANTS IN BAD CONDITION

A Walk Through Cotton Fields There Covers One's Clothing With Weevils. A Bale to Mule Is Estimated Yield As Compared To Ten and Fifteen in Previous Years.

Pitiful tales of hunger and suffering are brought back by Cleveland county farmers who have been making pilgrimages to the boll weevil sections of Georgia to import white and colored farm help to this county. Says the Shelby, N. C., Cleveland Star, Mr. Peter Grigg, who has just returned from Bishop, Ga., near Athens, says he found hundreds of men on their way to Cleveland farmers who had been driven to the boll weevil sections of Georgia to import white and colored farm help to this county. Says the Shelby, N. "UNKNOWN SOLDIER" WILL BE ESCORTED

Arthur Miller of Columbia One of Soldiers to Act as Pallbearer.

Columbia, Oct. 19.—The guard of honor for the American "unknown soldier" whose body will be taken to America and buried in Arlington cemetery on Armistice day, will leave here for Chelmsford, Mass. Sunday. They are expected to arrive in time for the ceremony of selection and for the trip to France on the 24th.

The members of the guard, named today, included: Sergt. William Noble, Aniston, Ala.; Thomas, Shehan, Lemuel Gannon and James Priestley of Gulfport, Miss.; Edward Carter, Cumberland Gap, Tenn.; Brock Abner, Elsie Vrooman, Oscar Anderson, Charles Melander, Archie Lawrence and Clarence Thorne, of Hartland, N. C.

WILL WAIT FOR TIME.

Commander Lumpkin Advises Legion Members.

Greenwood, Oct. 19.—Suggesting that the American Legion wait on developments in the railroad strike before taking further action, Morris C. Lumpkin, state commander of the American Legion, has replied to a request from Maj. W. M. Welch, prominent local American Legion official, that he poll every post in the state to see how many would be willing to take active measures to break the strike.

AN ADJUSTMENT FREIGHT RATES BEING SOUGHT

Columbia, Oct. 19.—An adjustment of freight rates in South Carolina and other Southeastern states, to meet them as low as freight rates in Georgia, or else to adjust the rates to the level of the rest of the country, will be on an equal basis, will be discussed at a conference in Atlanta on next Monday, to be attended by a representative of the Southern Railway Commission, at which time testimony regarding the rate situation will be taken by a representative of the Interstate Commerce Commission. James A. Ferry, of the Georgia Railroad Commission, has requested the South Carolina commission to have representation at this hearing. For many years the Georgia's freight rates have been lower than those of other states adjoining Georgia, and the South Carolina commission holds that the discrimination against this state is unfair.

My Bank Account.

Philosophers inform us we should labor and should save. But still, somehow, I cannot get it to do so.

I get it and fondle it. And handle it with care, but when I go to look at it. There is no money there. I often think of Russell Sage and how he got his start. But still, somehow, I cannot understand it, for my part. They say that Old Man Vanderbilt. He ran a ferryboat. But there's no ferry I can get. So far as I can note. And Edison is quite a man. Of whom the poets sing. He hasn't left a chance for me. He discovered everything. And then they tell about Babe Ruth. Acknowledged King of Swat. But what chance would I have. Out on that Polo lot! They tell of Rockefeller. And they tell of Charlie Schwab. But how much could they make. If they were on my job? But still, when all is said and done, I'm not doing it. I've got my last year's overcoat. And one brand-new fall hat.

On Federal Commission.

Columbia, Oct. 19.—Frank Shelby, chairman of the railroad commission, has been appointed as a member of the federal litigation and legislation committee of the National Association of Railway and Utilities Commission, and he has been requested to attend a meeting of this committee in Washington on the 24th, at which time amendments to the present transportation act will be discussed with the railroad legislation committee of the United States Senate.

FURMAN BRINGS SUIT TO SECURE PAYMENT

Greenwood, Oct. 19.—A suit involving \$10,000 will be brought by Furman University against the estate of the late C. A. C. Waller at the next session of the court of common pleas which convenes here Monday, at Judge Edward McIver presiding. Trial of the case is set for Tuesday.

Furman University is represented by Mayhew & Haynworth, of Greenville and Tillman, Mayes and Featherstone of Greenwood. The estate of C. A. C. Waller is represented by Grider, Park and Nicholson of Greenwood.

Attorneys for the plaintiff allege that during the Seventy-Five Million campaign the late C. A. C. Waller pledged \$10,000 to that cause, specifying that it should go to Furman beside the rest of the money. He paid \$400 of this amount has been paid. Decision will hinge on whether money, promised and not paid before death, can be collected from the estate of the person placing the money after his death, attorneys for the defendants say.

DREAMS.

By Dr. Frank Crane.

A dream is simply what may be called an eruption of the subconscious. That is to say, ideas, emotions, or feelings which are present in us, but of which we are not conscious, come up during our sleep as submerged bubbles rise to the surface of the sea. If we would keep in mind that we can dream no mind that is not already in our mind, that we cannot dream anything which we have never experienced, we should be saved much superstition.

Recently scientists have been making a careful study of dreams, and have come to the conclusion that dreams are a reflection of the treatment of the nervous system. For dreaming is, in a way, a symptom of disease. It is a species of morbidly. Absolutely healthy people do not dream. As very few of us, however, are 100 per cent. normal, there are very few who never dream.

From this arises the fact that people have from remote antiquity had an idea that dreams "mean" something; that they foretell events, and that the result of spirit communication. Previous to the era of modern science the "interpretation" of dreams, among intelligent persons is a dream is merely the outlet for some desire that has been suppressed.

In the lives of all of us there are subjects that for one reason or another we repress. Sometimes it is a longing which we are not able or not prepared to gratify. In the period of adolescence, for instance, the body is full of the feeling of sexuality. Nature is equipping the youth with the powers of reproduction. The natural desire that accompany this stage of life, which are quite properly held in subjection by the moral inhibitions. The result is often distressing dreams.

Young people are alarmed at this and are tempted to think that they are very wicked. This self-distrust often leads to unfortunate results. One who would give themselves up to these dreams, and if they are not dealt with in waking moments will become less and less annoying with time.

A reliable authority states as follows: "Dreams are never prophetic except by accident. To dream the winner of a horse race no more proves the prophetic value of your dream than your waking consciousness proves the prophetic value of your conscious thought. It is merely a fortuitous coincidence."

"Nor is that horse's victory the origin of your dream beforehand. More likely the origin is a—something like that result might happen."

"Neurologists for the most part rule out telepathy in connection with dreams."

"You dream of a man you have not consciously thought of for years and unexpectedly meet him the next day. You are not to conclude that your dream was influenced by his near neighborhood, or even by his presence, but only by the fact that the meaning of a dream is seldom what it appears to be on the surface; the opposite is the case. It is the subconscious mind that is likely to result in the scientific line and totally misleading generalization."

Alma commission holds that the discrimination against this state is unfair.

EPISCOPAL SYNOOD WILL MEET IN SAVANNAH

Columbia, Oct. 19.—Episcopal church folk of Columbia and South Carolina in general are interested in the approaching session of the synod of the fourth province which takes place in Savannah, a number of national church workers will appear on the program, among whom are several South Carolinians, Bishop W. A. Curry and the Rt. Rev. C. G. Finlay, bishop-coadjutor and Richard I. Manning.

Shriners Plan Ceremonial.

Greenville, Oct. 19.—At a meeting last night of local Shriners plans were laid and committees were appointed for the fall ceremonial of Elks Temple, which is to be held over December. The meeting was chaired by a general discussion of plans for the ceremonial and by a short address by Potentate George E. Bryant, who told of the history of the order and the many of the obstacles which confronted the early efforts toward organization of Elks.

The Proof Is Worth Its Price.

1. The railroad brotherhoods have signified their intention of calling a nation-wide strike to enforce a wage schedule which is not justified by the economic situation of the country. The railroad men themselves make no claim that their wage schedule is so justified.

2. The same issue was forced upon the public at a tickle moment, and the railroad men won the argument. It is fair to assume that their winning of the argument encouraged them to believe in their own power to dictate.

3. The economic dictation of any group of people who are so well informed, and who are so powerful, can affect the fortunes of the whole country in all times inauspicious and may at any moment become critical and indeed, at the mean the destruction of the nation itself.

4. The American principle is a square deal both for capital and for labor, but the demonstration of the national assertion of a man's right to just work is not the same assertion of a large body of men's right to the economic situation of the country and at the nation's loss. On that theory the physicians, for instance, could bankrupt the country or subject the whole ravages of disease.

5. If the railroad brotherhoods insist, there is no better time than now, but the demonstration is one and for all that no clique or faction of people, operating under any name, can enforce a set program by the product of its own will. Have the people of the United States the will to go through to a showdown? They have the will and, if the unions force the issue, they will prove they have it.

Such proof, clearly demonstrated will be worth whatever price it may cost.

His Record.

"What sort of a worker is that town carpenter you've got shingling your barn?" asked a neighbor.

"Well, he's been into the job this time, but only about fifteen minutes late and worked steadily till noon, to absolutely accuracy, twenty minutes short of it," replied Farmer. "Except, of course, stopping now and then to scratch himself or tell a funny story, and once to have an argument with an old fellow about the weather back in 1879, and occasionally to get a drink of water or yawn or take a chew of tobacco or look off across the country, and one time to show a little boy how to throw a puzzle, and afterward to explain the League of Nations to an inebriated stranger, and later on to go out into the road to help a good-looking lady start her stalled motor car, and so forth. He's a good fellow, I'm paying him seven dollars a day and his board for eight hours' work."

WANTS THE LAW.

To the Editor of The News:
The next time Mr. Stodgrass blunders into your office as a self-appointed benefactor, to kick at evils as well as at the office cat; and to suggest remedies for the evils and annihilation for the cat, ask him to confer a favor upon those who wish to plant winter crops by fixing some Legal Light of the city to give him the last legislative enactment on the STOCK LAW, and the penalty. And to kindly give it to us through the columns of your valued paper.

But we suggest, for the preservation of order in the Lawyer's office, the safety of his home and the other less-ornamental furniture therein, that you have Mr. Stodgrass handcuffed, his feet bearing a chain just long enough to allow him to step, not kick, and all justice, providing kindly advice to help mankind.

An Appeal For Help.

"Miss Florence M. Young, Field Secretary for the Florence Crittenton Home of South Carolina is in Chester in the interests of the school. The Home is doing Rescue and Preventive work among young girls of South Carolina and is greatly in need of financial aid.

The building is an old one and not suited to the work, and funds must be raised for a new building as well as for current expenses.

Girls have had to be turned away in the past few weeks because of

lack of room.
The building site has been purchased (cost \$2700) and we now have on hand \$8,000 toward the building fund.
Current expenses, including salaries are between \$400 and \$500 per month. The family averages 25.
Most of the girls needing assistance come to the Home destitute. It costs about \$35 to fit a girl out with the necessary clothes.

During the past year 44 girls and children have been cared for in our home.
We all know it has been a hard and difficult time financially for everybody in South Carolina, but we are asking you to give as liberally as you can of your means. Thus you can help these girls to become useful members of society and not a menace as they surely would become if not taken in time.

The thing needed in our Florence Crittenton are the same as those needed in any large family: Food, clothing and funds. All checks payable to and Treasurer, Miss Claudia A. Thorn, 63 Washington Street, Charleston, S. C.

BIG AGRICULTURAL DISPLAY.

At least five community exhibits from different parts of the county will feature the agricultural department this year. The committee appointed by the Farm Councils have been working diligently for some time to get up the best and most distinctive display of community exhibits ever presented at the Chester County Fair. This work began early last summer and the Fair Bureau has given all possible encouragement to make them an unusual success from every standpoint.

Prizes aggregating \$100.00 have been offered on these exhibits and the Fair Bureau has gone to considerable expense to build special booths in the Lloyd Exhibit Building, modeled after the community booths used at several of the best state fairs.

The committees are flanking with great care to rival each other in making their exhibit the best.

The different committees and the names of those who are taking part are as follows: Edgemoor, Mrs. J. W. Whitted; Mrs. A. E. Dry; Pleasant Grove, Mrs. L. J. Keckin; Mrs. Meadows; Cornwell, Miss Myrtle Mc-

Kown; Bink Boyd, Mrs. J. C. Sherr; John Stelling, S. B. Clouse; Wilksburg, Mrs. Lola Page; Miss Gertrude Wade; Lathier Wade; Frank Wade; Miss Sadie Wade; Boardman, E. A. Stevenson; Mrs. Tom Dye, J. E. Dye, Mrs. Henry C. Gibson, Mrs. J. Weldon Dye; Gladwin Dye, John C. Caldwell; Armitage, Mrs. Foster Gaylor, Mr. J. G. Grant; Miss Edna Grant; C. W. Atkinson, W. J. Simpson.

There is every promise that the general agricultural display will measure up to a high standard. Attractive specials are offered in this department in addition to the regular premiums. Mr. J. R. Reid is chairman of this year, and through his diligent efforts and the excellent cooperation of the farmers, will cut the Chester Fair in the front rank among the best agricultural exhibits. This feature gives promise to surpass, from a standpoint of variety and merit, any previous efforts along this line in the county.

In this mind a complete rearrangement has been made in the space assigned in the Lloyd Exhibit Building. The changes will provide better opportunity to display exhibits, and for the public to see them. It is the purpose of the Chairman to make his department representative of an agricultural county, to which Chester has indisputable claim and an enviable reputation, and at the same time to provide for exhibitors from elsewhere who desire to compete for the individual prize offered this year.

The community exhibits, the individual farm exhibits, the demonstration efforts of the boys' corn and pig clubs, and the large and excellent variety of select Chester grown products will be a revelation to Fair visitors.

Special worth-while prizes are offered by Chester merchants, banks and others.

THE BOY SCOUTS.

(Written For The News)
The first troop of Boy Scouts has taken on another patrol, which means eventually they will have 32 in number. Many of them have completed the second class test and are fast advancing towards first class degree. Each class is more intricate and is a gradual development, as is a promotion in the army, practically the same

system is used.
The second troop has taken on third patrol and has for its goal four full patrols before winter closes. They have just completed their new council flag at which all meetings will be held and tests passed.

The boys have a definite program mapped out for winter and are very enthusiastic over it.
Many boys in "cub" scouts will from time to time join one of the two troops of Scouts as soon as they become of scout age. This preparatory training has proved very successful in the Scout movement. The boys have a pretty definite idea of scouting and easily fall in line, eliminating all gray-backs to troops. By spring it is believed that still another troop will be formed to take care of all incoming applications.

Watch the Scout movement grow in honor of Bude-Elect.

(Written For The News)
Miss Edna Harrill was honored at a lovely party on Wednesday afternoon when Miss Lucile Casselle gave a Kitchen Shower in compliment to her. The "Halloween" colors yellow and black made effective decorations in the living room and hall. Weird black cats and pumpkins were adorned, vases of yellow Cosmos evidenced this, and the mantel and piano and the lights and candles with the low shades cast a soft glow over the entire room.

As soon as all the guests had arrived a love story contest was staged. Several showed themselves proficient in this and in cutting for prize Miss Harrill was the successful one and was presented with a box of handkerchiefs. A little later a delicious salad course was served. On each plate was a dainty little card on which was written a rhyme giving advice as to how to manage a husband. These were read amid much merriment and given to the bride for future reference.

Then the guests were invited out into the hall where the important feature, was carried out in a unique way. The bride-elect was seated in a chair near the front of the hall and then to the strains of the wedding march from Lohengrin, played by Miss Lucy Corbitt, the little "bride" berran, Myrtle Graham and Charlton Howze descended the stairs.

With the "bride" and "groom" were carrying they formed an aisle directly in front of the bride down which the kitchen bridal party passed. Next came the bride's maids, Miss Lucile Casselle and Mamie McCoy, followed closely by the bridesmaids, Mrs. A. T. Dunn. Then came the bride, Mrs. W. A. Graham. All four wore ornaments of kitchen utensils and far bodices carried clusters of aluminum sunshades. The bride's veil was a creation of blue and white striped fish cloth caught with clothes pins. They stopped before the honor guest and presented her with their gifts, which were many and varied.

Miss Casselle's guests included: Mr. E. M. Wylie, F. A. Forch, tenberger, Bobb, W. H. Patrick, L. Leckie, A. T. Dunn, H. L. Patrick, A. F. Anderson, W. A. Graham, J. L. Smith, W. H. Ferguson, S. L. Casselle, J. G. Howze, C. B. Gladwin, R. L. Koe and Miss Edna and Sarah Carroll, Margaret Lee, Margaret Kelly, Mamie Wilson, Rosa McCoy, Mamie McCoy, Annie and Cecy Corbitt and Helen Hood.

HELD ANNUAL MEETING.

The stockholders of the Chester Building and Loan Association held their annual meeting last Tuesday evening in the Court House, a number of them being present. The above mentioned association is one of Chester's greatest assets and the public will be pleased to know that it continued to progress and is now in position to receive applications from parties who are desirous of

building homes.
The following report was submitted to the stockholders at the meeting:
This annual meeting of the stockholders of the Chester Building and Loan Association is held at the time fixed by the By-Laws, on the third Tuesday of October, and we have just ended the eighteenth year of the Association and are now beginning and entering into the nineteenth year. The Association is eighteen years old.

The report of the Secretary and Treasurer shows the value of each series and the number of shares, as follows:
No. 13, 492 shares \$91.58
No. 14, 861 shares 75.50
No. 15, 851 shares 55.75
No. 16, 715 shares 39.86
No. 17, 1588 shares 25.07
No. 18, 1812 shares 12.84
Total 6256 shares

Series number 19 opened on the first Tuesday of this month and 750 shares have been subscribed, and we think this series will be larger than all when all subscriptions are paid. This gives a grand total of 7066 in the books of the Association.

The earnings for last year are 7-1/4 per cent. This is a good showing especially as the past year has been one of continual loss to all business here and few new loans have been made during the past year. But all of the loans are in good shape and we matured Series No. 15 last March and paid the stockholders promptly in cash. The Association expects to mature Series No. 13 next March. The Association can make a reasonable number of loans in the future.

Not Accidentally Good—Made that Way

TO PRODUCE day in and day out the clean-burning, full-powered "Standard" Motor Gasoline, no fewer than five important tests are employed. Nothing is taken for granted—nothing left to luck.

"Standard" Motor Gasoline has to pass five stiff examinations.

These are:
Chemical laboratory tests on the gasoline itself, to determine volatility, purity, stability, explosion points, etc.

Physical laboratory tests in one-cylinder engines, to determine character of ignition, rate of combustion, rate of pressure development, limits of performance, etc.

Dynamometer tests in standard makes of engines, to determine power developed, mileage per gallon, etc. Runs

equivalent to a year's service give accurate data on carbon formation, valve pitting, spark plug fouling, etc. Road tests by representative cars and trucks, which check the accuracy of former findings, and determine with greater accuracy the factors of acceleration, flexibility, range of carburetor adjustment, etc.

Service tests under average conditions. Company's pages are maintained, each containing from 30 to 200 cars, trucks and tractors, comprising every known use of motor-driven equipment. The drivers are both amateurs and professionals. These tests determine the all-around performance of the gasoline in the hands of the man.

"Anybody's Gas" may be good now and then, "Standard" Motor Gasoline has to be right all the time. That is what the public expects of it.

Prince Albert's a new note in the joys of rolling 'em!

Talking about rolling your own cigarettes, we'll tell you right here that Prince Albert tobacco has 'em all lashed to the mast!

You've got a handful-of-happiness coming your direction when you pal it with P. A. and the makin' papers! For Prince Albert is not only delightful to your taste and pleasing in its refreshing aroma, but our exclusive patented process frees it from bite and parch!

And, for a fact, rolling up Prince Albert is mighty easy! P. A. is crimp cut and stays put and you whisk it into shape before you can count three! And, the next instant you're puffing away to beat the band!

Prince Albert is so good that it has led four men to smoke Jimmy pipes where one was smoked before! It's the greatest old buddy-smoke that ever found its way into a pipe or cigarette!

Prince Albert is made in Jersey and when they roll them they roll them with care, and when they smoke them they smoke them with a smile.

Hajet Temple, Ancient Order No. 105 of the Mystic Shrine, will hold its fall ceremonial in Greenville on Thursday, December first. Many changes will be made next year in the officers' most of whom have held their respective offices since the temple was instituted in the fall of 1915. It is stated that there is a probability of the Shrine holding their spring ceremonial in some town other than Greenville. A number of Chester Shriners will attend the ceremony.

Why Not Join the crowd and buy your winter shoes from us? You can save money. Wyllie & Co.

Many of Chester county's farmers are already beginning to plan for defeating the boll weevil next year, and are going at their work with a vim. There is to be commenced a very much for this action and will not be put in a class with farmers in the lower part of South Carolina. As a News reporter heard a traveling man say a few days ago. The salesman had recently traveled over the southern section of South Carolina and the reporter was asking him about the conditions down there. When asked what they were raising down there this year the salesman said, "Not a darn thing but a boll weevil."

Why pay \$30 for young men's suits while we sell them at \$14.50? \$15.50 boys high school, young men's \$35.00 suits. \$12.50 boys a new fall \$25 suit of 1920 value. Buy now while the price is cut. The J. T. Collins' Department Store.

We Sold One hundred and fifty pairs of "Stronger-Than-Law" shoes last Saturday. Why do they sell so well? Because they wear. Wyllie & Co.

Mr. John Stone went to Winnsboro Wednesday to hear a boll weevil lecture and says he learned how to make cotton under boll weevil conditions. The News proposed to keep it on Mr. Stone next year.

Mrs. John Noyes has returned to her home at Vance after spending several days in Chester with her parents, Mr. and Mrs. William McRinnell, on Columbia street.

"The Old Nest" at Dreamland Wednesday and Thursday. First show 11:30 A. M.

Mr. John Fraser, of our fair city, who is known far and wide as a "lover" of fine horses and not the only Chesterite who believes in thorough-bred stock. The McRinnell Bros., not only Chester county's foremost and most progressive farmers but South Carolina's, as well, will accompany "Captain John" to the State Fair in Columbia this year and they too will take a long time real stuff for Fair visitors to have over. As it is generally known the McRinnell boys are premium takers at the State Fair and in all probability will again bring back blue ribbons this year.

County Engineer Kester is in receipt of a letter from an attorney of Rock Hill with reference to the Buick automobile which turned over at South Fork bridge last Friday night and which was driven by a man named Gilmore. A dumber of Chester people saw the accident and others can vouch for the speed at which the car was running and unless Gilmore plays safe there is a probability of his facing a charge of speeding in the Chester county Highways instead of securing damages from the county, as has been asked by the attorney. To a News reporter the matter begins to look as if Gilmore has made a bad move when he let the authorities get hold of his name.

For Rent—A three horse farm at Landford Station. Three good buildings for tenants. Large barn and out-houses. Terms to suit Mr. Boll-weevil. Address, R. B. Johnson, Edgemoor, S. C.

Chester's newest mercantile establishment is located in the Marion Building on Main street, in the store room formerly occupied by Mr. Joseph A. Walker. For a number of years, and is known as The Hub Dry Goods Store. Already a large stock of goods has arrived and a page advertisement in this issue of The News is telling of prices which the new-comers are offering to Chester people. The proprietors have stores in other cities and state that their connections will enable them to offer Chester people some excellent bargains.

Young Negro Killed Yesterday.

A colored youth named Guest was shot and instantly killed yesterday morning about seven o'clock by Sidney Williams, also colored, on the Richburg road about five miles from Chester.

Sheriff Anderson and Deputy Howze went to the scene, after which the Coroner held an inquest, the verdict of the jury being that Williams shot Guest accidentally. From information obtainable it appears that both of the young negroes had a pistol and were endeavoring to see which could pull his pistol out of his pocket the fastest. Williams drew his pistol and in pointing it at Guest it was discharged, the bullet striking Guest in the heart inflicting a wound from which he died instantly.

The accident happened on or near the public highway and was witnessed by a brother of Guest. The negroes were cousins.
